

RETURNING A COMMUNITY DEVICE A CHECKLIST FOR PATIENTS

We hope you found this device helpful during your admission.
Please help us get it ready so it can help the next patient.

PREPARING THE DEVICE TO BE RETURNED

- ☐ Be sure to **delete** ALL messages before you return the device to your nurse
- ☐ If you logged the device into any of your personal accounts (Gmail, Facebook, etc.) be sure **to log out and delete** anything that was stored on the device
- ☐ If you gave out the Signal number to your friends or family members, **ask them to delete it from their contact list and to never use it again to reach you.** This was a temporary number that was assigned to you so you and your nurse could communicate. **The number will be re-assigned to another patient and to another healthcare provider.** You will not be able to use this number again to connect or follow-up with your nurse

THINK OF THE DEVICE LIKE A COMPUTER AT THE PUBLIC LIBRARY

Protect your personal data - log out and delete anything
stored on the device
