

MAKING A VIDEO CALL HEALTH CARE WORKERS

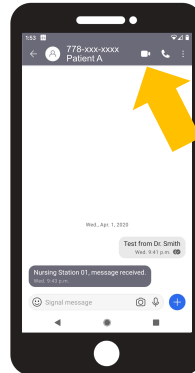

1

Open the Signal app
Click on the patient you want to call

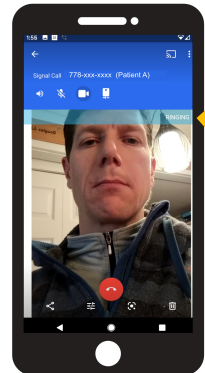

2

Click on the **video icon** to initiate the call

3

The screen should say **Dialing** or **Ringing**

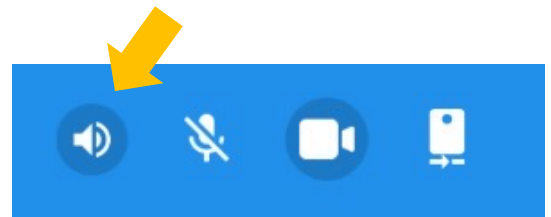

4

When the patient answers, ask them to hit the video camera icon so you can see them on video as well. Confirm you have the correct patient

If you have trouble hearing your patient, turning on the speakerphone may help.

5

Click on the **End Call icon** to end the call
